

BioMedical SERVICES

— Your Trusted Partner in Health & Wellness —

CAPABILITY BOOK

Precision. Quality. Reliability.
Every Step of the Way.

INNOVATIVE SOLUTIONS

Built for your brand.

QUALITY YOU CAN TRUST

GMP standards.
Proven processes.

PARTNER YOU CAN GROW WITH

Scalable. Reliable.
Results driven.

END-TO-END CAPABILITIES

From concept to
customer and
beyond.

ADVANCED EQUIPMENT

State-of-the-art
technology for
consistent results.

EXPERT TEAM

Experienced
professionals
dedicated to you.

QUALITY ASSURANCE

Rigorous testing
and compliance
at every step.

BUILT FOR WELLNESS

Supporting brands
that make a positive
impact.

QUALITY YOU CAN **TRUST**.

PARTNER YOU CAN **GROW WITH**.

RESULTS YOU CAN **RELY ON**.

CONTRACT MANUFACTURING SOLUTIONS

BLENDING

Precision blending for consistency and quality.

ENCAPSULATION

High-quality capsules for a wide range of formulations.

BOTTLING

Automated bottling with accuracy and speed.

STICK PACK

Convenient single-serve stick packs, filled and sealed with precision.

VITAMIN SACHET

Efficient sachet packaging for capsules, softgels and tablets.

BULK POWDER FILL

Bulk powder filling for tubs, pails, bags and boxes.

B2C / B2B FULFILLMENT & SHIPPING

Pick, pack, kitting, warehousing and global shipping solutions.

OUR PROVEN PROCESS

1

CUSTOMER DISCOVERY

We listen, learn and align on your goals, market and needs.

2

FORMULATION DEVELOPMENT

Evidence-based formulas designed for performance.

3

FLAVOR WORK & PILOTING

Flavor optimization and pilot batches to perfect taste and experience.

4

LABEL CREATION & FINALIZING

Professional label design, compliance and final approvals.

5

PURCHASING & MANUFACTURING

Quality ingredients, precision manufacturing, strict GMP standards.

6

FINAL FINISHED GOOD TESTING & RELEASE

Rigorous in-house testing for purity, potency & safety.

7

CoA TO CUSTOMER & SHIPPING ARRANGEMENT

CoA provided with secure, on-time shipping you can count on.

QUALITY YOU CAN TRUST.
PARTNER YOU CAN GROW WITH.

GMP CERTIFIED

INNOVATIVE SOLUTIONS. BACKED BY SCIENCE.

Our in-house R&D team partners with you to turn ideas into market-ready products. From concept to commercialization, we provide expert formulation, advanced testing, exceptional flavors, and pilot-scale manufacturing to ensure your success.

100+ YEARS OF COMBINED EXPERIENCE

A team of scientists, flavorists, formulators, and technicians dedicated to your success.

FULL FLAVOR HOUSE

- ✓ Extensive library of natural & artificial flavors and ingredients
- ✓ Beverage, powder, functional, and maskers
- ✓ Custom flavor creation and profile optimization
- ✓ On-trend flavors to help your brand stand out

PILOT SUITE & CAPABILITIES

- ✓ Full pilot suite for powders, capsules and stick packs
- ✓ Blend, mix, encapsulate, and fill
- ✓ Stick pack, and encapsulation for pilot runs
- ✓ Scale-up confidence before full production

FORMULATION & DEVELOPMENT

- ✓ Science-backed formulations that deliver results
- ✓ Ingredient selection and functional synergy
- ✓ Stability, compatibility, and bioavailability
- ✓ Cost-effective, scalable, and compliant solutions

R&D SERVICES WE OFFER

CONCEPT DEVELOPMENT

Transform ideas into feasible, market-ready product concepts.

FORMULATION SERVICES

Custom formulas tailored to your target benefits and goals.

INGREDIENT RESEARCH

Identify the right ingredients for efficacy, quality, and compliance.

STABILITY & COMPATIBILITY

Ensure product performance, shelf life, and ingredient integrity.

PILOT PRODUCTION

Small-batch production to validate formula, process, and packaging.

CONSULTING & SUPPORT

Strategic guidance every step of the way—from idea to launch.

OUR R&D DIFFERENCE

INNOVATION

Forward-thinking solutions that keep your brand ahead of the market.

EXPERTISE

Deep technical knowledge across ingredients, formats, and benefits.

IN-HOUSE ADVANTAGE

Everything under one roof—faster communication, better outcomes.

SPEED TO MARKET

Efficient processes and pilot capabilities to get you to market faster.

PARTNERSHIP

We succeed when you do. Your goals are our priority.

OUR R&D PROCESS

CAPABILITIES AT A GLANCE

IDEAS. SCIENCE. INNOVATION.
That's the BioMedical Services Advantage.

QUALITY YOU CAN TRUST.

PARTNER YOU CAN GROW WITH.

RESULTS YOU CAN RELY ON.

BLENDING

Precision. Consistency. Quality in Every Blend.

POWERED BY

3 MUNSON ROTARY BLENDERS

The **best** blending machines
in the industry.

FLEXIBLE BATCH SIZES

From as small as

75 kg

Up to as large as

2,000 kg

TESTED & RELEASED

All ingredients are tested and
fully released prior to blending.

GMP COMPLIANCE

Operators follow and use GMP
process and documentation
including Master Manufacturing
Records and Batch Production
Records.

FULL TRACEABILITY

All details including Item ID,
weight, and lot number are
documented for
full traceability.

VALIDATED FOR EXCELLENCE

Blend size, time, and loading
scheme have been fully validated
to ensure each blend is uniform
and homogenous.

OUR COMMITMENT TO QUALITY

DOCUMENTED PROCESSES

GMP processes and
documentation
followed at every step.

VERIFIED INGREDIENTS

Every ingredient is
tested and released
before blending.

ACCURATE & REPRODUCIBLE

Validated parameters
ensure consistent,
high-quality blends.

QUALITY YOU CAN TRUST

Delivering safe, reliable
and effective products
for your brand.

QUALITY YOU CAN **TRUST**.

PARTNER YOU CAN **GROW** WITH.

Your Trusted Partner in Health & Wellness

ENCAPSULATION

Precision. Performance. Quality in Every Capsule.

POWERED BY

6 BOSCH DMW 2000 ENCAPSULATION MACHINES

Our state-of-the-art fleet is housed in **climate and humidity-controlled suites** that create the ideal environment for quality and efficient encapsulation.

HIGH CAPACITY

Up to
3 MILLION
capsules per day

WIDE SIZE RANGE

Capsule sizes
2 to 00

VEGETABLE-BASED ONLY

Only vegetable-based capsules are allowed and used within the facility.

STATISTICAL PROCESS CONTROL (SPC)

Operators use SPC to control weights, with entries and verification every **15 minutes**.

POLISHED & DE-DUSTED

Capsules are polished and de-dusted prior to final quality check and release to bottling.

QUALITY ASSURED

Every batch undergoes rigorous in-process and final quality checks to ensure consistency and performance.

GMP COMPLIANT OPERATIONS

All processes are performed under strict GMP guidelines with fully documented procedures and batch records.

OUR COMMITMENT TO QUALITY

CONTROLLED ENVIRONMENT

Climate and humidity-controlled suites ensure optimal conditions for encapsulation.

PRECISION & CONSISTENCY

Advanced technology and experienced operators deliver precise fill weights and exceptional consistency.

FULL TRACEABILITY

Complete documentation and lot traceability from start to finish.

QUALITY YOU CAN TRUST

From raw material to finished capsule—we are committed to your brand's quality and reputation.

QUALITY YOU CAN **TRUST**.

PARTNER YOU CAN **GROW** WITH.

Your Trusted Partner in Health & Wellness

BOTTLING

Speed. Accuracy. Reliability in Every Bottle.

POWERED BY 2 HIGH SPEED FULLY AUTOMATED PACKAGING LINES

Built for performance and precision,
our automated bottling lines
deliver **consistent quality**,
efficiency, and **compliance**.

HIGH SPEED PERFORMANCE

Up to **60** bottles per minute
based on bottle size and fill count.

WIDE FILL RANGE

Capsules, softgels, or tablets
from as low as **10** count up to
200 count per bottle.

EXPERTLY MANNED

Highly trained operators and
quality techs with expertise in
21CFR Part 111 compliance
and strict **GMP** processes.

METAL DETECTION

Each line is equipped with in-line
metal detection to ensure product
safety and purity.

2 HIGH SPEED, FULLY AUTOMATED PACKAGING LINES

Up to **60** bottles per minute per line

CAPSULES

SOFTGELS

TABLETS

BUILT.. T-IN QUALITY. EVERY STEP OF THE WAY.

In process checks at each step ensure
accuracy, compliance, and product integrity.

ITEM ID VERIFICATION

Verify correct item identification
at all critical points.

CAPSULE COUNT ACCURACY

Automated and manual checks
ensure exact fill counts.

LOT CODE & EXPIRATION

Verify lot code and expiration
for complete traceability.

LABEL VERSION CHECK

Ensure correct label, version,
and artwork every time.

SEAL INTEGRITY

Induction seal or cap torque
verified for maximum protection.

FINAL APPEARANCE CHECK

Visual inspection for cleanliness,
labeling, and overall presentation
before being cased out.

METAL DETECTION

In-line detection of ferrous,
non-ferrous, and stainless steel
contaminants.

OUR BOTTLING PROCESS – QUALITY IN EVERY STEP

1

BOTTLE UNSCRAMBLING

Bottles are automatically
unscrambled and
oriented.

2

FILLING

Precise filling of
capsules, softgels,
or tablets.

3

IN-PROCESS CHECKS

Weight, count, and
visual checks to verify
accuracy.

4

CAPPING

Caps are placed
and tightened
securely.

5

LABELING

Accurate label
application and
verification.

6

SEALING

Induction sealing
for maximum
product protection.

7

FINAL INSPECTION

Final appearance
check before
casing out.

8

CASE OUT

Bottles are
carefully counted,
packed, and cased.

QUALITY YOU CAN TRUST.

PARTNER YOU CAN GROW WITH.

Your Trusted Partner in Health & Wellness

FLEXIBLE SOLUTIONS. BUILT FOR YOUR BRAND.

Our advanced stick pack packaging capabilities deliver high-quality, convenient single-serve solutions for powders, granules, and more.

3 ADVANCED MACHINES

2 Sanko 8-lane machines for high volume and larger sticks. 1 Viking 2-lane machine for smaller runs and smaller fill weights.

FULLY AUTOMATED

High-speed, precise packaging with minimal manual handling for maximum efficiency.

CLEAN & CONTROLLED ENVIRONMENT

All machines are housed in clean, temperature-controlled suites to ensure product quality and consistency.

SANKO 8-LANE MACHINES (x2) High Volume. Larger Sticks.

Ideal for high-volume production and larger stick pack formats.

VIKING 2-LANE MACHINE (x1) Small Runs. Smaller Fill Weights.

Perfect for smaller runs and lower fill weights.

QUALITY YOU CAN COUNT ON

Every stick pack is produced with precision, care, and continuous quality monitoring.

WEIGHT CONTROL

Continuous in-process monitoring ensures proper fill weight on every stick.

SEAL INTEGRITY

Seal strength and integrity are constantly checked to ensure every pack is secure and reliable.

EXPERT TEAM

Experienced operators and QC technicians ensure consistent performance and compliance.

GMP COMPLIANCE

All operations follow strict GMP processes with complete documentation and traceability.

FINAL INSPECTION

Each batch is reviewed for appearance, weight, and seal integrity before release.

IDEAL FOR A WIDE RANGE OF PRODUCTS

POWDERS

GRANULES

BEADLETS

CRYSTALS

OUR STICK PACK PROCESS

1

FILM FEED

Precision film feeding for accurate forming.

2

FILLING

Accurate product dosing across lanes.

3

SEALING

Strong, consistent seals for product protection.

4

CUTTING

Clean, precise cutting for uniform stick packs.

5

IN-PROCESS MONITORING

Continuous checks of weight and seal integrity.

6

PACKAGING

Completed sticks are counted, checked, and boxed for shipment.

QUALITY YOU CAN TRUST.

Built-in quality at every step for products your customers can rely on.

SCALABLE SOLUTIONS

From small batch to high volume, we scale with your needs.

CONSISTENT PERFORMANCE

Advanced equipment, skilled team, and strict processes deliver results.

ON TIME. EVERY TIME.

Reliable production and delivery to keep your brand moving.

SMART NUTRITION. SINGLE-SERVE CONVENIENCE.

Our vitamin sachet line delivers a **customizable, convenient, and effective** way to package daily nutrition or targeted system support blends.

COMBINE UP TO 4 PRODUCT TYPES

Capsules, softgels, or tablets can be combined in any configuration to meet your formula needs.

FLEXIBLE FILL CAPACITY

Depending on size and weight, each sachet can fit nearly **10 total capsules** per sachet.

IDEAL FOR MULTI-VITAMIN & SYSTEM SUPPORT

Perfect for full multi-vitamin delivery or system-specific blends in a convenient single-dose format.

EXAMPLE SACHET CONFIGURATIONS

1 CAPSULE,
1 SOFTGEL,
1 TABLET

1 SOFTGEL,
2 CAPSULES,
1 TABLET

4 CAPSULES,
1 SOFTGEL,
1 TABLET

QUALITY YOU CAN TRUST

METAL DETECTION

Integrated metal detection ensures product safety and purity.

TRAINED & QUALIFIED TEAM

Fully trained operators and QC technicians follow strict GMPs and compliant documentation.

IN-PROCESS MONITORING

Continuous monitoring of sachet count and product configuration throughout the run.

QUALITY ASSURANCE

Every sachet is checked for proper fill, seal integrity, and final appearance.

PACKED OUT YOUR WAY

UNIT CARTONS

Sachets packed into individual unit cartons for retail-ready distribution.

GUSSETED BAGS

Sachets packed into gusseted, sealed bags for bulk or value-size distribution.

OUR SACHET PACKAGING PROCESS

BUILT FOR YOUR BRAND

Custom formulations. Flexible packaging. Solutions that support your vision.

QUALITY AT EVERY STEP

GMP-driven processes and rigorous quality controls you can rely on.

EFFICIENT & RELIABLE

Advanced equipment, experienced team, and consistent results.

ON TIME, EVERY TIME.

Reliable production and delivery to keep your brand moving.

QUALITY YOU CAN TRUST.

PARTNER YOU CAN GROW WITH.

Your Trusted Partner in Health & Wellness

BULK POWDER FILL LINE

Efficient. Precise. Scalable. Built for Quality.

CLEAN. ACCURATE. BUILT FOR PERFORMANCE.

Our bulk powder fill line delivers high-speed performance with the same **tight GMP controls** and quality standards you expect across every step of our process.

TIGHT GMP CONTROLS

Operated by trained operators and QC technicians following strict GMPs and compliant documentation.

METAL DETECTION

Integrated metal detection ensures product safety and integrity on every fill.

MULTIPLE CANISTER SIZES

Capable of running a wide range of canister sizes to meet your specific product and market needs.

HIGH-SPEED PERFORMANCE

Twin head filler with speeds up to 70 bottles per minute for maximum efficiency.

TAMPER EVIDENT SEAL

Clean shrink film label with perforated tear top serves as a tamper-evident seal.

TWIN HEAD FILLER

Dual auger filling system delivers accurate, consistent fills for a wide range of powder densities and product types.

UP TO
70
BOTTLES
PER MINUTE

QUALITY YOU CAN TRUST

PRECISION & ACCURACY

Consistent fill weights with continuous in-process checks and adjustments.

TRAINED & QUALIFIED TEAM

Experienced operators and QC technicians ensure quality, compliance, and reliability.

IN-PROCESS MONITORING

Ongoing monitoring of fill weight, seal integrity, label placement, and appearance.

GMP COMPLIANCE

All operations follow strict GMP processes with complete documentation and traceability.

FINAL INSPECTION

Every canister is inspected for weight accuracy, seal integrity, label quality, and final appearance before release.

OUR BULK POWDER FILL PROCESS

1

CANISTER FEED

Canisters are automatically oriented and fed into the line.

2

FILLING

Twin head auger filler delivers precise and consistent fills.

3

METAL DETECTION

Every canister passes through metal detection for product safety.

4

LABEL & SEAL

Clean shrink film label with perforated tear top applied for tamper evidence.

5

CHECKWEIGH & INSPECT

In-process checks verify weight, seal integrity, label placement, and appearance.

6

RELEASE

Approved canisters are ready for case pack or palletization.

QUALITY YOU CAN COUNT ON

Robust quality systems and advanced equipment ensure safe, consistent products.

SCALABLE SOLUTIONS

Flexible to support small or large runs with a variety of packaging formats.

EFFICIENCY THAT DELIVERS

High-speed performance and automated controls reduce downtime and drive productivity.

ON TIME. EVERY TIME.

Reliable production and delivery to keep your brand and your business moving forward.

QUALITY YOU CAN TRUST.

PARTNER YOU CAN GROW WITH.

Your Trusted Partner in Health & Wellness

FULFILLMENT SOLUTIONS

Strategically Located. Lightning Fast. Built for Your Brand.

TWO FULFILLMENT CENTERS. COAST TO COAST COVERAGE.

With strategically located warehouses in Louisville, Kentucky and Sandy, Utah, we ensure faster delivery, lower shipping costs, and a better experience for your customers.

STRATEGIC LOCATIONS

Orders East of the Mississippi ship from Louisville, KY.
Orders West ship from Sandy, UT.

THOUSANDS OF ORDERS DAILY

Our team and systems are built to process and ship thousands of orders every single day.

100% SAME DAY FULFILLMENT

Orders received by 3:00 PM MST ship the same day, every day.

ACCURATE. RELIABLE. ON TIME.

Quality processes and empowered teams ensure your orders are picked, packed, and shipped right—the first time.

CONNECTED. TRANSPARENT. SEAMLESS.

We integrate with leading eCommerce platforms and provide full visibility every step of the way.

INVENTORY VISIBILITY

Real-time inventory levels so you always know what's available.

SHIPPING STATUS

Real-time tracking and shipment updates for you and your customers.

INVOICING & REPORTS

Easy access to invoicing, reports, and order history whenever you need it.

PACKAGING OPTIONS THAT PROTECT YOUR BRAND AND THE PLANET

CORRUGATED BOXES
Durable. Reliable.
Customizable.

POLY MAILERS
Lightweight. Water-Resistant.
Cost-Effective.

PADDED ENVELOPES
Protective. Lightweight.
Customer-Friendly.

MADE TO FIT
Right-size packaging to
reduce waste and cost.

SUSTAINABLE OPTIONS
Fully recyclable and
eco-friendly options
available.

ORDER RECEIVED
Order is received
through your
connected
eCommerce store.

PICK & PACK
Our team picks,
packs, and verifies
each order with
care and accuracy.

QUALITY CHECK
Every order is
inspected to meet
our strict quality
standards.

SHIP SAME DAY
Orders received by
3:00 PM MST ship
the same day,
guaranteed.

DELIVERED
Your customers
receive on-time,
every time.

OUR FULFILLMENT PROCESS

RELIABLE PARTNER

We become an extension of your team,
focused on your success.

SCALABLE CAPACITY

Built to scale with your business—
from hundreds to thousands to more.

OPERATIONAL EXCELLENCE

Process-driven, technology-enabled,
and continuously improving.

CUSTOMER EXPERIENCE

Fast shipping. Accurate orders.
Happy customers. Repeat business.

QUALITY YOU CAN TRUST.

PARTNER YOU CAN GROW WITH.

Your Trusted Partner in Health & Wellness

COMPLETE TESTING SOLUTIONS. FASTER RESULTS. LOWER COSTS.

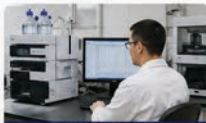

With a state-of-the-art Microbiology Lab and full Analytical Lab in-house, we deliver the testing you need with speed, accuracy, and cost efficiency.

Everything you can test in-house, we do. Anything we can't, we partner for.

MICROBIOLOGY LAB

In-house full micro testing for product safety and quality.

ANALYTICAL LAB

Full-service analytical testing for identity, potency, and purity.

THE BIO MEDICAL SERVICES ADVANTAGE

FASTER TURNAROUND

In-house capabilities mean quicker results and faster time to market.

LOWER COSTS

No middleman. No shipping delays. More value for your testing budget.

COMPLETE CONTROL

Direct oversight, strict quality systems, and full data integrity.

EXPERT TEAM

Experienced scientists and technicians committed to your success.

IN-HOUSE TESTING CAPABILITIES

FULL MICROBIOLOGY PANEL

- Total Plate Count
- Yeast & Mold
- Coliforms
- E. coli
- Salmonella
- Staphylococcus aureus
- Pseudomonas aeruginosa
- ...and more

FULL ANALYTICAL TESTING

- Identity Testing
- Assay / Potency
- Heavy Metals (ICP-MS)
- Pesticides (LC-MS/MS, GC-MS/MS)
- Moisture
- pH
- ...and more

We handle the most common testing in-house—so you get reliable results faster and more cost-effectively.

NEED SOMETHING UNIQUE?

For specialized or unique testing requirements, we leverage our network of trusted third-party laboratory partners.

We manage the process, so you get the right test, from the right partner—seamlessly.

OUR LABORATORY PROCESS

1. SAMPLE RECEIVED
Samples logged in and reviewed for requirements.

2. TESTING INITIATED
In-house or partner lab testing begins.

3. DATA REVIEW
Results are reviewed by qualified scientists.

4. REPORTING
Clear, accurate reports delivered on time.

5. QUALITY ASSURED
Supporting your quality, compliance, and success.

EQUIPPED FOR ACCURACY

- ICP-MS
- LC-MS/MS
- GC-MS/MS
- HPLC / UPLC

- UV-Vis
- Microbiology Incubators
- Autoclaves
- And More

QUALITY YOU CAN TRUST

GMP-compliant labs with robust quality systems and documentation.

SPEED THAT GIVES YOU AN EDGE

Faster results mean faster decisions and faster time to market.

VALUE THAT MAKES SENSE

In-house testing saves you time, money, and hassle.

YOUR SUCCESS IS OUR PRIORITY

We're more than a lab—we're your partner in quality.

FORMULATE SMART. MAXIMIZE VALUE.

Leverage Our Existing Portfolio or Bring Something New—You Have Options.

When developing your product, you can choose to formulate with ingredients and components we already carry—or bring something unique. Here's how the **two options** compare.

USE INGREDIENTS & COMPONENTS FROM OUR EXISTING PORTFOLIO

Smarter. Faster. More Flexible.

FASTER DEVELOPMENT

Ingredients are in stock and ready to go—helping you move from concept to market, faster.

LOWER INITIAL INVESTMENT

No additional ingredient MOQs to purchase means lower upfront costs and less financial risk.

NO EXCESS INVENTORY

You only pay for what's used in your production run. No leftover inventory = no waste, no worry.

PROVEN QUALITY & COMPLIANCE

All ingredients are pre-qualified, tested, and part of our established GMP system.

COST-EFFECTIVE SCALABILITY

Easier to scale your product with reliable supply, consistent quality, and no supply chain surprises.

VS

PURCHASE UNIQUE INGREDIENTS & COMPONENTS

More Complex. Higher Risk. Less Flexibility.

REQUIRES MOQ PURCHASE

All unique ingredients and components must be purchased in full MOQ quantities—regardless of how much you use.

EXCESS BECOMES YOUR RESPONSIBILITY

If your production run does not use the full quantity purchased, the remaining inventory and value belong to you.

HIGHER UPFRONT INVESTMENT

Upfront cost includes purchasing and qualifying new ingredients, plus larger inventory commitments.

LONGER LEAD TIMES

Sourcing, lead times, and testing can add weeks (or months) to your development timeline.

GREATER RISK

Supply disruptions, quality issues, or formulation changes can lead to costly delays and inventory write-offs.

OUR RECOMMENDATION

For speed, flexibility, and cost efficiency, formulate with our existing portfolio whenever possible.

SHARE YOUR CONCEPT

Tell us your goals and target benefits.

WE RECOMMEND

We'll match your needs with the best ingredients from our portfolio.

YOU MOVE FORWARD

Faster, smarter, and with no excess inventory risk.

NEED SOMETHING UNIQUE?

We'll guide you through the process, including MOQ requirements, costs, and potential risks—so there are no surprises.

BUILT ON QUALITY

GMP-certified processes and rigorous quality at every step.

PARTNERED FOR YOUR SUCCESS

We're more than a manufacturer—we're your long-term partner.

FOCUSED ON VALUE

Smart solutions that save time, reduce risk, and protect your investment.

YOUR TRUSTED PARTNER

Proudly supporting brands in health and wellness—every step of the way.

Smart Choices. Stronger Partnerships. Better Products. That's the BioMedical Services Advantage.

We go beyond manufacturing. Our integrated approach, proven systems, and dedicated team deliver a better experience and better results for your brand.

CAPABILITY	BIOMEDICAL SERVICES Your End-to-End Advantage	TYPICAL CDMO Limited. Outsourced. Inconsistent.
 NSF GMP CERTIFIED FACILITY	✔ Yes. NSF GMP Certified (NSF/ANSI 455-2)	— Sometimes
 IN-HOUSE LABORATORIES	✔ Two in-house labs: Analytical & Microbiology	— Often outsourced or limited
 PRODUCT DEVELOPMENT	✔ Full R&D, formulation & sample production	— Limited or not offered
 FLAVOR & SENSORY DEVELOPMENT	✔ In-house flavor house & sensory evaluation	— Rare or outsourced
 PILOT MANUFACTURING	✔ 75 kg minimum pilot batches in-house	— Often outsourced
 SCALABLE PRODUCTION	✔ From 75 kg to 2,000+ kg production batches	— Limited scale or multiple facilities
 MULTIPLE DOSAGE FORMS	✔ Capsules, bottling, powders, sticks, sachets & more	— Varies by manufacturer
 INVENTORY STRATEGY	✔ Strategic inventory & supply chain planning	— Not offered
 NATIONAL FULFILLMENT	✔ 2 strategic warehouses & same-day shipping	— Separate 3PL or longer lead times
 E-COMMERCE INTEGRATION	✔ Shopify & major platforms integration	— Not always available
 DEDICATED PROJECT MANAGER	✔ Single point of contact from start to finish	— Not always provided
 REGULATORY & DOCUMENTATION	✔ COA, SDS, label review, compliance support	— Limited support

TRUSTED BY BRANDS. PROVEN BY RESULTS.

THE BIOMEDICAL ADVANTAGE

SCIENCE DRIVEN
In-house R&D, analytical, and microbiology labs drive innovation and product excellence.

FLEXIBLE MANUFACTURING
Scalable, agile solutions across multiple dosage forms with advanced equipment.

QUALITY YOU CAN TRUST
NSF GMP-certified facility with rigorous testing, documentation, and compliance.

DEPENDABLE SUPPLY CHAIN
Strategic inventory, national fulfillment, and same-day shipping for reliability and speed.

TRUE PARTNERSHIP
Dedicated team, clear communication, and a long-term commitment to your success.

One Partner. Every Capability. Endless Possibilities.
Helping brands succeed at every stage—today and tomorrow.

Proudly manufactured in our NSF GMP Certified Facility to the highest standards of quality, safety, and compliance.
